

23. The pharmaceutical composition of claim 18, wherein said first molecule recognizes CD3 and is a gamma2B IgG antibody or derivative of a gamma2B IgG antibody.

Remarks

The application is to be amended as previously set forth. The changes are generally made to correct minor typographical and format errors and to more appropriately claim the invention in view of United States practice.

Conclusion

In the event questions remain after consideration of these amendments, the Office is kindly requested to contact applicant's attorney at the number given below.

Respectfully submitted,

Allen C. Turner
